Lighting

8 LED par cans and lighting console

Please send your input list & stage plots to mike@divevenue.com and spec which (if any) of our in-house backline you will be using for your show. I can save you time and allow myself (and you) a chance to eat if I have notice of what is required and can set it up for you in advance.

Parking: good luck! You can park in the car park behind the venue during weekends and after 5.30pm on weekdays. Please let venue know you will be doing so, so that a remote control clicker for the barrier arm can be arranged so you're not left hanging on the road unable to access.
